

LETTER OF REFERENCE

Re: M I

May 19, 2006

To Whom It May Concern,

It has been my privilege to have M I work at the Canada Export Centre in an educational practicum position for the past six weeks.

During this time, M I worked with several different people in our organization on various different projects and has been a great pleasure to work with. In fact, we were so confident in her that she became responsible for a major project we were undertaking. She works well as a part of a team as well as independently. Her understanding of instructions and conversation skills in English are exceptional. Her previous work experience in Japan gave her a very good business vocabulary.

I highly recommend her to anyone looking for a self-directed, hard working and intelligent employee. We are sorry to see her go.

If you require additional information, please contact me personally anytime.

Sincerely,

Mark Mensing

CEO, Canada Export Centre
